## CHARACTER ANIMATION

[jasparvanrijn.ca](http://jasparvanrijn.ca) jaspar.vanrijn@gmail.com Vancouver BC

I love a challenge, creative problem solving is my friggin jam and I work very hard to do the job well. I was a very active kid and I somehow managed to bring some of that childlike joy for movement into adulthood. I think that gives me an edge in animation because I have always paid attention to how I move and importantly how others move.
